

Covid-19 related costs

Last Modified on 23/06/2022 5:32 pm NZST

Creative New Zealand grants can contribute to COVID-19 related costs up to a maximum of \$500 per application. This includes costs of masks, PCR/RAT testing, and other sanitation costs. Quarantining or managed isolation costs are not eligible for our support. We only support Covid-19 related costs that are directly related to the activity for which you're seeking Creative New Zealand support.

We will review this guidance in December 2022.
